## TROUT AIR HISTORY

Trout Air was originally farmland established by the Preiner family. After discovering the lowland conditions were not suitable for farming, the Preiners began a successful construction company that was located on the soon-to-be Trout Air land for 25 years. When the Preiners retired from construction, they started a fish farm with the lowlands proving to be a natural development for it.

In 1964, the Trout Air trout farm was born, raising fish for commercial use as well as for the sport fishing enjoyment of dedicated anglers. Four of the Preiner children pitched in whenever possible to help with the seemingly never-ending fish hatchery chores. Upon their return from the service, some of the Preiner sons started a recreational sky diving club located on Trout Air land. It was the skydivers, always hungry after their adventures, who inspired the humble beginnings of a restaurant connected with Trout Air. With a four-burner stove and twelve tables, the Trout Air Restaurant was born.

Due to increased popularity and demand, the Preiner family opened the Trout Haus in 1974, a foundation was laid at Trout Air and the McGowan Cabinet Shop was moved in one piece from Forest Lake to its new location as the focal point of the Trout Air complex. It was a complete family affair, having a member of the Preiner family working in every area of the business, from the fish-raising project all the way to making reservations at the restaurant. Trout Air closed in 1999, making way for Running Aces.

Running Aces is excited to bring back the memories, authentic tastes and the "catch-your-own" experience of Trout Air, where Minnesotans enjoyed fishing and dining for decades.
